

Probiotics + Prebiotics IN ONE

GI-ProBalance® Supports a healthy immune system

Gluten free

Live bifidobacteria
& lactobacilli

No artificial flavours

No artificial colours

No sweeteners

No preservatives

The adult human gut has over 500 species of bacteria, mostly in the large bowel. Bacteria live in the gut in peaceful coexistence, helping us to keep out disease-causing bacteria. Keeping our immune system healthy and maintaining the lining of the bowel. This neighbourhood of microbiota is supported by probiotics and prebiotics.

GI-ProBalance yoghurt flavoured powder comes in convenient slimsticks that contain both probiotics and prebiotics, giving your gut well rounded support and maximum defence against bad bacteria.

Benefits:

- May improve gut health
- Balances out your digestive system with probiotics and prebiotics
- Contains six (6) different strains of beneficial probiotic bacteria and two (2) different types of prebiotics specially selected to survive the stomach's acidic environment
- It contains fructo-oligosaccharides which are foods for intestinal bacteria

Recommended Use:

Dissolve one packet daily into water or juice for a tasty yogurt flavoured drink. Suitable for adults and children. Does not require refrigeration, but must be stored below 30°C. Use only as directed.

INGREDIENTS: Oligofructose, maltodextrin, vegetable gum (gum acacia), corn starch, xylitol, probiotics blend (Lactobacillus plantarum, Lactobacillus rhamnosus, Bifidobacterium longum, Lactobacillus acidophilus, Bifidobacterium breve, Streptococcus thermophilus), dextrin, nonfat dry milk, yoghurt flavour, anti-caking agent (silicon dioxide), glucose, antioxidant (ascorbic acid), potato starch.
