## Here's How It Works:

Let's say, for example, you place a £100 Monthly Subscription:

Once you've achieved a 20% point accrual, maintain your status with a Monthly Subscription to continue earning points and redeeming them for free products!

## Associate and Preferred Customer:

During your first three months, a Monthly Subscription must generate each month for you to retain your earned points. Starting in month four, you'll be eligible to either redeem or save those points. If you miss a Monthly Subscription, you start the three month Loyalty cycle over again. However, you will keep any points you've retained from the first three consecutive months. The Loyalty Programme FAQs can be found at: [library.mannatech.com](http://library.mannatech.com).
