

Help Keep your Heart and Bones Strong

With an Amazing Nutrient Combination*

Adding Omega-3 to your diet can contribute to a **balance of immune functions** that help keep you healthy. With the addition of vitamin D, it's the perfect complement for **optimized bone, brain and heart health**.*

While **eating certain fish can provide omega-3**, the truth is, not many of us consume the correct number of servings to benefit from them. Since it's difficult to get the **omega-3s and vitamin D** you need, we made a **supplement that provides both**.

Break barriers with our Omega-3 with Vitamin D₃ supplement today!

Benefits:

- Helps support cardiovascular and heart health.*
- Helps support brain health and function.*
- Supports calcium absorption.*
- Has a subtle lemon flavor added to help you avoid those fishy burps.
- Two capsules provide 830 IU of vitamin D₃, an excellent source of Vitamin D.

KEY POINT

Omega-3 and vitamin D are both required nutrients. There is significant evidence that much of the world's population is deficient in both nutrients.

COMPLEMENTARY PRODUCTS:
These great Mannatech products pair well with Omega-3 with Vitamin D₃:

Ambrotose LIFE®—

Ambrotose LIFE powder is the most important nutritional supplement for your health. We believe it does more for your health than any other combination of products ever developed. It can help support your immune system, improve cognitive functions and support gastrointestinal health.*

CardioBALANCE®—

CardioBALANCE capsules help maintain blood vessel and cardiovascular health with the proper amount of B₆ and B₁₂ vitamins for long-term wellness.*

Keep This Product Cool

During periods of hot weather and/or while shipping to areas experiencing hot weather, the Omega-3 capsules may soften and stick together. While product efficacy is unaffected, consuming capsules that stick together, or which have melted together, may be unpleasant. For this reason, we suggest storing our Omega-3 product in a cool place and ordering enough of our Omega-3 product during cooler months so as to avoid possible heat-related shipping problems during hot weather.
