

The World's Greatest Aloe

No Other Aloe Can Compare

Manapol™ is 100% aloe vera gel powder harvested from plants grown in rich, volcanic soil in Costa Rica's perfect growing climate. You cannot get a purer, richer natural source of Glyconutrients[†] anywhere, at any price. Mannatech has partnered with Natural Aloe Costa Rica for over a decade to help produce the most potent, stable and extraordinary aloe extract in the world. The natural Acemannan polysaccharides in Manapol boast the highest molecular weight available commercially (1-2 million Daltons), as defined by the American Chemical Society. The higher the Daltons, the more potent the substance.

Mannatech's Competitive Edge:

- Exclusive extraction technology owner and used solely by Mannatech.
- Hand-harvested and hand filleted to protect the leaf's inner gel.
- Cold process that uses no heat, no enzymes, no charcoal, no additives and no preservatives.
- Continuous investments to our state-of-the-art technology that focuses on a balance of science and nature.

FUN FACT

There are more than 200 varieties of the aloe plant. The aloe plant with the highest levels of acemannan come from one specific type: Ours.
