

Help Strengthen Your Gut - Support Your Microbiome

U.S. Product Shown

With natural yet scientifically proven ingredients, GI-Defense™ capsules are formulated to nourish and help strengthen the gut lining. A stable, healthy intestinal environment allows for healthy microbes to flourish and provide the digestive, immune and cognitive support your body needs. *

In order to create a strong, stable environment for beneficial bacteria to thrive, your intestinal lining requires an abundant supply of short-chain fatty acids (SCFA) known as butyrates. The *Glycobiome and Butyrate Support Blend* exclusively found in GI-Defense, contains powerful antioxidants and flavonoids that support your body's ability to produce its own arsenal of beneficial butyrates. When a microbiome environment is sound and balanced it is better able to support healthy digestion and immunity. *

GI-Defense capsules are formulated to:

- Help strengthen and support gut barrier function and integrity.*
- Support healthy intestinal permeability and environment.*
- Help purify the gut and balance beneficial bacteria.*
- Support short chain fatty acid (SCFA) production, especially butyrate production.*
- Contribute to the maintenance of the normal mucus function of the intestinal lining.*
- Support healthy functioning of the immune and digestive systems.*
- Help comfort feelings of gas and bloating.*

FUN FACT

"Leaky gut" or intestinal permeability is a condition in which the lining of the intestine becomes damaged, creating small perforations. These small leaks allow for undigested food particles, toxins and harmful bacteria to "leak" through the intestines and flood the blood stream, causing a host of health issues. That is why the health of your intestinal lining is so important!

GI-Biome System™

THEY'RE BETTER TOGETHER

GI-Defense may be used as a stand-alone product, or as part of the GI-Biome System that includes three products (GI-Defense, GI-ProBalance and GI-Zyme). Used together, these pave the way for digestive health and gut microbiome support for many other systems in your body.*

COMPLEMENTARY PRODUCTS:

These great Mannatech products pair well with GI-Defense:

GI-ProBalance®—Formulated to nourish your gut with 8 strains of probiotics and rich prebiotic fibers and supports the natural balance of good bacteria in your gut microbiome and to help maintain healthy digestion.*

GI-Zyme®—Scientifically formulated to help improve digestion and the absorption of nutrients from food, and may reduce typical discomfort that can be caused by normal eating.*
