

**GI-PROBALANCE®**  
**(SKU 18601)**  
**PRODUCT TRAINING SHEET**

---

## PRODUCT BASICS

**PRODUCT DESCRIPTION:** Tasty and convenient, GI-ProBalance slimsticks are designed to nourish your gut with 8 strains of probiotics and rich prebiotic fibers.\* GI-ProBalance supports the natural balance of good bacteria in your gut microbiome and helps to maintain healthy digestion.\*

### BENEFITS:

- Promotes natural immune function.\*
- Supports a healthy microbiome.\*
- Supports healthy blood lipid levels\*
- Supports a healthy metabolism\*
- Helps maintain a healthy balance of intestinal flora and may support some components of a healthy immune response.\*
- Supports a natural balance of good bacteria to maintain healthy digestion.\*
- May support the body against occasional intestinal disturbances and typical, occasional digestive upsets.\*
- Contains 8.5 billion CFU guaranteed at time of expiration.
- Supports a healthy gut-brain axis.\*
- Supplements natural probiotic levels that might fluctuate due to normal aging, diet or other normal digestive issues.\*
- Contains acid-resistant probiotic strains.

### FEATURES:

- Gluten-free
- Free from preservatives and MSG
- Suitable for vegetarians
- Contains naturally-sourced ingredients
- Remains viable without refrigeration
- No artificial flavors or sweeteners
- Ingredients are supported by scientific studies and data
- Low glycemic
- Keto and low carb friendly
- Non-GMO

## WHAT MAKES THIS PRODUCT SPECIAL?

### POINT OF CONVENIENCE:

GI-ProBalance offers a quick melt formula sold in convenient slimsticks. This allows you to take it with or without food or water, from wherever you are. Complete flexibility!

### WHO IS IT FOR?

- Primary: Customers with typical digestive discomfort, looking to ease normal upsets and improve their daily health.\*
- Secondary: Consumers who are seeking other health benefits such as the brain-gut axis.\*

### WHAT MAKES IT UNIQUE?

- Unlike other probiotic supplements, GI-ProBalance offers a blend of probiotics to increase the number of good bacteria within the digestive tract and prebiotics to feed and nurture the probiotics for more intense health benefits.\*
- The balance between good and unhealthy bacteria in the intestines can be altered by stress and the consumption of an unhealthy diet. Taking Ambrotose® powder and GI-ProBalance products together may help restore a healthy balance of gut bacteria and provide immune support beyond the effects of taking each product alone.\*

### WHAT IT IS NOT:

It's not a digestive enzyme or antacid

### TOP FAQ:

#### 1. What is the importance of the amount of CFUs a probiotic supplement contains? What make's Mannatech's GI-ProBalance slimsticks special?

The potency of probiotics is measured in colony forming units (CFU). CFUs are determined by allowing the organism to grow under controlled conditions, and then counting the number of colonies present. Not all the bacteria (live organism) will remain viable when they arrive at their intended destination in the gut and that is why GI-ProBalance was specifically formulated to begin with 50 Billion CFU and to end at 8.5 Billion at time of expiration. Often other probiotic supplements may not list the guaranteed potency at expiration meaning all strains could be dead by the time they are consumed.

#### 2. How does GI-ProBalance powder enhance the benefits of Ambrotose® products?

In vitro research suggests there may be an additive effect when GI-ProBalance powder is combined with Ambrotose powders.\* The arabinogalactan in the Ambrotose products may be broken down and utilized by specific bacteria present in GI-ProBalance powder.\* At the same time, arabinogalactan is a prebiotic that has been shown to support the growth and proliferation of specific bacteria found in our GI-ProBalance product.\* The expected result is enhanced support from both products.\*

**COMPLEMENTARY PRODUCTS:**

**GI-Defense®**—Can help strengthen and nourish your intestinal lining, providing a stable environment for your microbes to carry on their vital tasks, so your gut and brain can perform at optimal levels.\*

**GI-Zyme®**—Scientifically formulated to help improve digestion and the absorption of nutrients from food, and may reduce typical discomfort that can be caused by normal eating.\*

**DIRECTIONS:**

Take one slimstick daily with or without food and drink.
