- Low glycemic
- Free from common allergens, such as gluten, dairy and soy
- Free from MSG, preservatives, artificial flavors, colors and sweeteners
- Suitable for vegans
- Contains naturally-sourced ingredients
- Suitable for individuals sensitive to lactose

## WHAT MAKES THIS PRODUCT SPECIAL?

### POINT OF CONVENIENCE:

MannaBOOM is a quick melt formula allowing adults to pour directly into mouth or mix with food or beverage. The powder comes in slimsticks which means you can take it on-the-go.

### WHO IS IT FOR?

- Anyone looking to add extra support for their immune system because they are feeling ran down.\*
- Anyone looking for immune system support as an addition to their supplement routine.\*

### WHAT IT IS NOT:

MannaBOOM is not just a vitamin C supplement, nor does it contain a full serving of Manapol powder. MannaBOOM is a balanced supplement that provides both a portion of vitamin C and a portion of Manapol along with other key ingredients to provide focused immune support.\*

### TOP FAQ:

#### 1. What is Manapol powder and why is it such an important ingredient in MannaBOOM?

Manapol is the trademark name for the world's only standardized and stabilized aloe vera extract. The Manapol Mannatech uses to formulate MannaBOOM is the most abundant, natural source of acetylated mannans (Acemannan) in the world. It's this unique extract which provides superior support for cellular communication, immune and digestive functions.\* Specifically, Manapol is the only commercially available Aloe vera ingredient to contain the broad spectrum of mannans up to and including Acemannan which is defined as 1-2 million Daltons.

#### 2. Why is it so important for your immune system be strong and healthy?

Your immune system is your body's natural defense against things like foreign invaders and toxins. Your immune system must be strong enough to detect and eliminate such things.

#### 3. Would you ever take ImmunoSTART® and MannaBOOM?

Yes. These products approach immune support in different ways and can work together for additional support.

ImmunoSTART is a daily, chewable supplement featuring colostrum. Colostrum includes immunoglobulins, one of nature's amazing antibodies, that may raise immune cell counts, vital to having a normal immune response when your immune system is challenged.\*

MannaBOOM, through vitamin C and other key ingredients, provides immune support by helping to nourish immune cells and reinforce your body's own natural immune resistance.\* MannaBOOM is a slimstick containing a quick melt formula that can be taken occasionally for extra support or daily for continual support.\*

#### 4. Why was acerola cherry chosen for the MannaBOOM formula?

Acerola is grown in tropical regions of the Americas. The fruit is known for being one of the richest natural sources of vitamin C.

**5. I see on the package it states that it is an improved formula. What has changes?**

As of 4<sup>th</sup> quarter in 2020, Mannatech increased the vitamin C by 150%, added zinc, increased Manapol more than 20% and increased gum acacia for more Glyconutrients.

**DIRECTIONS:**

Adults – Take one slimstick directly into the mouth or added to a food or beverage. Repeat every 3-4 hours as directed, up to 3 slimsticks per day.

Children 4 years and older – Take one slimstick per day added to a food or beverage.
