#### SUPPORTING INFORMATION:

Mannatech uses the most premium aloe source on the planet. A proprietary extraction method can provide Manapol with a high concentration of polysaccharides containing the monosaccharide, mannose, in the form of Acemannan, which is an important Glyconutrient believed to be responsible for the immunologic health benefits associated with Aloe vera gel.\*

Manapol also provides more than just immune support.\* To support immune system modulation, Manapol helps bring the ratio of immune cells back into balance, helping enable the system to function correctly.\*
