

AMBROTOSE® COMPLEX (SKU 35101) PRODUCT TRAINING SHEET

PRODUCT BASICS

PRODUCT DESCRIPTION: Ambrotose® powder is a rich blend of prebiotics, soluble fibers and naturally sourced Glyconutrients, including our exclusive Manapol® powder, the highest-grade, 100% pure, Aloe ingredient on the planet. Mannatech created Ambrotose 20 years ago to offer a product that is scientifically shown to help you keep living in good health.*

BENEFITS:

- Supports your immune system as well as proper organ function.*
- Helps support proper digestive system function.*
- Promotes gastrointestinal health.*
- Supports cell-to-cell communication through a blend of specific plant saccharides called Glyconutrients.*
- Includes beta-carotene for immune system health.*

FEATURES:

- Naturally gluten-free
- Suitable for vegetarians
- Patented formulation
- Kosher
- Low glycemic
- Free from soy, dairy, preservatives, artificial colors
- Contains naturally-sourced ingredients

WHAT MAKES THIS PRODUCT SPECIAL?

POINT OF CONVENIENCE:

Ambrotose Complex capsules provide an alternative for powdered drinks and more flexibility for on-the-go consumption.

WHO IS IT FOR?

- **Primary:** Individuals who are not feeling as healthy as they once did and are looking for a way to help improve their nutrition and support healthy aging.
- **Secondary:** Individuals who are active, healthy, strong and would like to maintain that healthy lifestyle by adding in targeted nutrition for daily support.

TOP FAQ:

1. What is Manapol powder and why is it such an important ingredient in Ambrotose Complex capsules?

Manapol is the trademark name for the world's only standardized and stabilized Aloe vera extract. The Manapol Mannatech uses to formulate Ambrotose is the most abundant, natural source of acetylated mannans (Acemannan) in the world. It's this unique extract which provides superior support for cellular communication, immune and digestive functions.* Specifically, Manapol powder is the only commercially available Aloe vera ingredient to contain the broad spectrum of mannans up to and including Acemannan which is defined as 1-2 million Daltons.

2. What is a Dalton and why is it important?

The Dalton is a unit to show molecular weight. For Acemannan, the 1-2 million Dalton definition was set forth by CAS and USAN.[†]

3. What is Acemannan?

Mannatech's Manapol contains a key active ingredient named Acemannan, known to many as the functional component of the Aloe vera plant, sourced from the inner leaf gel. Acemannan contains a long chain sugar (known as a saccharide) that is utilized by the cell membrane for support of cellular recognition and communication. This is what makes the Manapol in Ambrotose LIFE[®] so effective, and has been scientifically linked to help improve immune response and cellular metabolism.*

4. How does Acemannan affect the body?

Acemannan is the key Glyconutrient and active component in Aloe vera. Scientific studies have shown its benefits on a cellular level, as well as supporting the body's immune and digestive systems.*

DIRECTIONS: Take one capsule two times daily with 8 fl oz of water or juice.
