

Help Keep your Heart and Bones Strong

With an Amazing Nutrient Combination

Adding Omega-3 to your diet can help support cognitive and brain function to help keep you sharp. With the addition of vitamin D, it's the perfect complement for **optimized bone, brain and heart health.**

While **eating certain fish can provide omega-3 fatty acids**, the truth is, not many of us consume the correct number of servings to benefit from them. Since it's difficult to get the **omega-3s and vitamin D** you need, we made a **supplement that provides both.**

Break barriers with our Omega-3 with Vitamin D₃ supplement today!

Benefits:

- Helps support cardiovascular and heart health.
- Helps support brain health and function.
- Provides support for healthy triglyceride levels already within normal levels.
- Supports calcium absorption.
- Provides over 1,000 mg of highly concentrated EPA and DHA per serving.
- Has a pleasant lemon flavour and are easy-to-swallow.

FUN FACT

Omega-3 fatty acids are essential because the body can't produce them! The only way to get them is from diet or supplements.
