

LIVER SUPPORT
(SKU 30101)
PRODUCT TRAINING SHEET

PRODUCT BASICS

PRODUCT DESCRIPTION: Liver Support is formulated to detoxify and support healthy liver function and digestive health.* Some important functions of the liver include: breaking down red blood cells, the production of hormones, secretion of bile, processing many vitamins and nutrients that can be used by the body, and detoxifying various substances.*

BENEFITS:

- Supports the liver's ability to detoxify.*
- Supports the liver's many functions.*
- Promotes healthy liver function.*
- Supports healthy nutrients levels.*
- Supports digestive health.*
- Supports the metabolism of food to energy.*
- Supports cellular energy production.*
- Provides choline which may help support healthy methylation.*

FEATURES:

- Free from gluten, soy, dairy, artificial flavors or sweeteners, and preservatives
- Suitable for vegans, keto and low carb friendly
- No MSG
- Low glycemic
- Non-GMO
- Naturally sourced ingredients

SUPPORTING INFORMATION:

The liver is a genius at synchronization; skillfully coordinating multiple essential functions for the body. In fact, the liver performs 500 vital functions in the body! Like a biological 'mastermind', it controls the filtering and purifying the blood flowing through it, producing hormones, and simultaneously storing extra nutrients like fat-soluble vitamins and breaking down proteins, and removing damaged red blood cells and toxins.

- The liver is the body's largest internal organ weighing over 3 pounds.
- The liver affects nearly every physiological process of the body.
- If you were to lose 75% of your liver, it will grow back completely in one year.
- The liver plays a very crucial role in processing almost everything that is consumed.

WHAT MAKES THIS PRODUCT SPECIAL?

WHO IS IT FOR?

Developed for adults who wish to support their natural liver function.

WHAT MAKES IT UNIQUE?

Our product was designed for daily use to not only support the function of the liver, but to support against daily toxins resulting from our fast-paced modern lifestyle.*

TOP FAQ:

1. Is the liver necessary for digestion?

Yes. The liver creates bile, which is important for digestion, specifically for breaking down fats. Bile also helps to metabolize proteins.

2. How does the liver support immunity?

The liver contains the largest collection of phagocytic cells in the body. Phagocytic cells protect the body from foreign particles, bacteria, and dead cells. Because the liver is involved with processing what passes through the gut, it is an important barrier between us and the outside world in terms of immune defense.

3. Why was Milk Thistle used in Liver Support formula?

Milk Thistle is known for supporting liver health and function by supporting against damage that can be caused by free radicals.*

4. Why was Turmeric used in Liver Support formula?

Turmeric is known for its active compound, curcumin, and it seems to have a powerful benefit for supporting liver function in particular, the liver's ability to detoxify.*

5. Why was Choline used in Liver Support formula?

Choline is an essential nutrient needed for optimal health. Our bodies produce some but not enough therefore, supplementation can have a positive effect on liver health.*

DIRECTIONS:

Take 2 capsules once daily with 8 fl. oz. of water or juice. For best results, take 20 to 30 minutes before a meal.
